Blanco: white spirit, un-aged and bottled or stored immediately after distillation, or aged less than two months in stainless steel or neutral oak barrels

Reposado: aged a minimum of two months, but less than a year in oak barrels of any size

Añejo: aged a minimum of one year, but less than three years in small oak barrels

With 100% agave tequila, blanco is harsher with the bold flavors of the distilled agave up front, while reposado and añejo are smoother, subtler, and more complex. As with other spirits that are aged in casks, tequila takes on the flavors of the wood, while the harshness of the alcohol mellows.
